About the workshop

Ongoing legal and judicial reforms focus on transforming the performance of court systems, in particular by dramatically enhancing court administration. These measures aim to reduce delays, clear backlogs and improve the quality, consistency and speed of delivery in judicial decision-making processes. They also aim to improve the experience of attending court for victims and witnesses and safeguard against the risks of corruption.

This workshop will review how much has been done over the past 30 years to enhance access to justice in England and Wales. Improved witness and victim services, efforts to ensure consistency in sentencing approaches and rigorous service delivery performance measures have all been introduced, whilst the key principles of judgement by peers and an uncorrupted judiciary have been maintained. The workshop will consider how this has been achieved and how well it has been maintained in a period of dramatic cuts to budgets, staff and resources.

Who is it for?

This workshop is designed for policy makers, practitioners and senior decision-makers across the justice sector. These will include

- Judges
- Registrars
- Court administrators
- Case managers
- Legal and judicial reform specialists
- Others concerned with making the justice sector work more effectively for the benefit of all citizens, to uphold the rule of law, encourage inward investment and advance speedy, fair and reliable justice

How participants will benefit

By the end of the workshop you will learn about:

- The way the justice sector is organised and managed in England and Wales
- The current judicial reform agenda
- Initiatives to achieve speedy justice
- Approaches to achieving consistency in sentencing
- How to enhance ethical working and reduce the risks of corruption
- Measuring and inspecting court performance
- New approaches to dealing with those involved in court proceedings, especially young people and vulnerable people

What the workshop will cover

During the workshop you will be able to:

- Place the current reform agenda in the context of 1000 years of English legal history
- Experience approaches to delivering speedy, consistent and fair judgements
- Develop a wide range of techniques for improving the administration of justice and the running of courts
- Understand approaches to reducing the risks of unethical behaviour
- Use what you have learnt to analyse the effectiveness of your own courts system

You will be invited to give an informal presentation on your own system and to talk about the particular challenges faced in handling court administration in your own country.

The workshop will include briefing sessions, discussions, case studies, practical work and visits. It has been designed to be flexible so that it can be adjusted wherever practicable to meet your specific requirements and those of your organisation.
