About the workshop

Leadership is critical to organisational success and to ensuring that the workforce is engaged and aligned to contribute to a successful and responsive public service.

- Develop a suite of leadership skills, including leading self and others, strategy delivery, effective communication, teamwork and implementing change
- Develop self-awareness and personal effectiveness to enable high performance .

We believe that training should be learner-centred and should help our participants develop strategies that work both inside and outside the training room. We recognise that participants have different aims, world knowledge, learning styles and experiences and that motivation is crucial to successful learning.

We aim to create an enjoyable learning environment in which you will develop the skills and knowledge to enable you to be effective in as wide a variety of situations as possible. At the same time, we work to provide opportunities for personal and professional development. We value the different learning styles and personalities that each participant brings to the workshop and we encourage you to innovate and experiment with new ideas and activities.

Workshop notes, presentations and a range of different materials will be provided on an Android tablet for you to use during the workshop and take home with you for future reference and follow up. We will ask you to complete a pre-workshop diagnostic questionnaire which we will use during the week. We will also invite you to give a short informal presentation about your work and how leadership is being developed in your organisation.
