About the workshop

The rule of law is internationally recognised as a prerequisite of good governance. It embodies respect for the principle of equal access to justice for all citizens, rich and poor, and it renders the legality of public actions by all public servants – including those of top officials and politicians – liable to scrutiny and review by independent courts. These principles are embedded in the Charter of the United Nations and in the Universal Declaration of Human Rights and are recognised in the constitutions of nation states around the world.

Observance of the rule of law has major economic implications: confidence in the fairness and the accessibility of a country's legal system and in the independence of its judiciary affects the willingness of other countries to do business with that country. Recent events – in particular, the worldwide COVID-19 pandemic - have prompted government actions that may pose significant challenges to the rule of law. This workshop will explore practical strategies for reinforcing respect for the rule of law, with particular reference to the delivery of justice and access to the justice system in a fast-changing world – particularly when public expenditure comes under increasing pressure.

Who is it for?

This one-week workshop is designed mainly for lawyers, judges, legal administrators and representatives from non-government organisations and funding agencies with an interest in the judicial sector. It will draw substantially upon recent and continuing developments in England and Wales and will also encourage you to share ideas and experiences with participants from other jurisdictions.

How participants will benefit

The workshop will:

- Examine the meaning and significance of the rule of law and the continuing challenges posed by major events such as the COVID-19 pandemic
- Familiarise you with recent and current initiatives to modernise the management and delivery of justice
- Enable you to understand the financial and other obstacles to access to the justice system
- Identify aspects of UK experience and the experience of other participants which can be applied in your own country
- Help you to identify practical ways of initiating relevant and sustainable change to enhance respect for the rule of law and access to justice on return to your own country.

What the workshop will cover

During the workshop you will be able to examine how the key UK mechanisms and agencies, such as courts and tribunals, the Ministry of Justice and its executive agencies, the legal aid system and the legal professions relate to one another and deliver their services so that you can consider, in the light of shared experience, options for reform in your own country, and construct action plans that embody practical strategies for change.

At the beginning of the workshop you will also be invited to give an informal presentation on your own system and to identify any particularly pressing problems relating to the management and delivery of justice and issues surrounding respect for the rule of law in your home country.

“PAI stands as an agent of change through the delivery of timely and relevant development programmes, affecting governments around the world. I am fortunate to have been a part of this dynamic global experience.”
